### INSURANCE

This is quite a feature of my business. I represent two strong and liberal companies, whose contracts are free from the usual numerous restrictions that some other companies have, which really have the effect of insuring the company instead of the insured.

No trouble to explain the policies and quote rates.

ACCIDENT TICKETS — These are adapted to persons who do not desire yearly insurance, but who wish protection on short trips, etc. I issue them without written application, taking effect immediately.

I am agent at Bryan for the Oliver Typewriter, the only standard visible writing machine.

### PUSHED TO THE LIMIT

Clergyman Says High Finance Has Gone Its Length.

### GRAFT EVERYWHERE

President, Hon. Grover Cleveland and Others Have the Opportunity of Their Lives to Benefit Fellow Countrymen.

New York, July 3.—Rey. David G. Wylie, preaching Sunday on "national degeneracy" in Scotch Presbyterian church, said: "Greed for gold is almost universal in America. To use an offensive term, 'graft' seems everywhere. This craze for wealth leads to cheating, stealing, lying and many immoral features in business life. Here in New York men have tarnished their names by the manner in which they have dealt with the trust funds of a great institution. Men, well known, respected, high in commercial and social station have taken fire into their hands and it has burned them to the quick."

"We have had an exhibition of 'high finance' pushed to the limit. We need to imitate the municipal authorities of Glasgow in the bank scandal, where directors of high standing were sent behind bars. The trial and conviction of guilty men who have wrongfully used other people's money would do much to restore confidence in the majesty of the law; for law ought to deal in the same manner with rich and poor.

"Even at the risk of being called sensational, I affirm from this Christian pulpit that the president of the United States in his dealing with grasping corporations, and ex-President Cleveland, Paul Morton, State Superintendent of Insurance Hendricks, Attorney General Mayer and District Attorney Jerome have the opportunity of their lives to serve hundreds of thousands of their fellow citizens by righting a great wrong."

### SERIOUS DELAY.

Eastern Railroad Trains Entering Denver Are Badly Hampered.

Denver, July 3.—Eastern railroad trains entering in Denver are experiencing the most serious delay in traffic that has occurred on the lines for several years. They were unable to get trains to Denver on time Sunday and those leaving the city had to go so slowly that they will, as a rule, be late in arriving at destinations.

The trouble is caused by the unprecedented rains in Nebraska and Kansas. The Burlington had 2500 feet of track washed out between Arapahoe and Holbrook and it became necessary to use the Union Pacific tracks. The tie-up is causing delay in arrival of delegates to the Epworth League convention here.

### HEART ON COFFIN.

Doctor Performing Operation to Receive Fifty Thousand Dollars.

Hollister, Cal., July 3.—Gustave A. Kihm, a native of Hamburg, Germany, committed suicide here by taking morphine. He left a will in which he directed that his heart should be cut out and placed on his coffin. The doctor performing this service is to receive \$50,000. He asked that no one should see him after death and no mourners should follow him to the grave.

### CONVENTION CLOSES.

Asheville, N. C., July 3.—The Young People's Missionary Movement convention at Kenilworth Inn closed Sunday night with an enthusiastic session.

### ALL QUIET AT ODESSA.

London, July 3.—A private telegram from Odessa Monday said all was quiet.

### FLOOD IS FRIGHTFUL.

One Thousand Persons Are Reported to Have Drowned.

### TOWN IS WIPE OUT

This Disaster Is said to Have Befallen Marfil, While Guanajuato and Other Places Have Severely Suffered.

City of Mexico, July 3.—Guanajuato is completely flooded, the water invading the higher parts of the city. The La Olla dam threatens to give way. This dispatch is from olores Hidalgo to the governor of Queretaro and is the only direct news of what is supposed to be a greater disaster than the flooding of Leon, in the same state, in 1888, when many lives were lost. Telephone and telegraph communication to Guanajuato is entirely severed. It is known a terrific downpour of rain occurred in that city Saturday night.

Dispatches from Queretaro state that rumors are current there that enormous damage was sustained at Guanajuato, but no loss of life, as the people had sufficient warning to escape to the mountains sides before the streets were inundated.

Another rumor is that La Olla dam is already gone out. If this be true, the extent of the disaster must have been appalling.

The cloudburst at Guanajuato occurred in the southeast part of the city, flooding all the principal streets. Plaza del Cantador is six feet under water. Some streets are under water twenty feet deep. Some mines are partially flooded.

The town of Marfil, the terminus of the railroad, just below Guanajuato, is completely wiped out.

The Central northbound passenger train ran into the washout just north of Iraputo and derailed some coaches, which are under water. President Robinson of the Central says there were lives lost, but he cannot tell how many. It is believed the dam was completely destroyed.

During the past few years an immense amount of American and British capital has been invested in Guanajuato. The office of the Furness company is under water to above the sill of the second story windows.

A later report says the building collapsed. This is the leading company there and influential, inducing the investment of foreign capital.

### WHOLESALE SHOOTING.

Three Negro Women Killed and Four Men Wounded.

Americus, Ga., July 3.—A wholesale shooting occurred near Leslie, ten miles east of Americus, resulting in the killing of three negro women and the shooting of four other negroes. A negro named Hicks did all the shooting, killing his wife, his mother-in-law and another woman.

Hicks and his wife had been separated some time. On Sunday he went armed to the home of her parents but learned that she was eight miles away on another plantation. Without explanation Hicks raised his shotgun and killed his mother-in-law in her tracks. He then compelled the dead woman's husband, at the point of the gun, to secure a team and carry him to where his wife was staying. Upon arrival there an hour later Hicks shot his wife dead and then shot promiscuously until four other negroes had fallen, making a total of seven victims. Coffins for three were sent from Americus that afternoon and little hope is entertained for the recovery of the remaining four victims. Hicks has not yet been captured, but Sheriff Bell and Deputy Gatewood are making every effort to locate him. There is the greatest excitement in the vicinity of the tragedy.

Special Train Bearing Late John Hay's Body Leaves Newbury.

Newbury, N. H., July 3.—A special train bearing the body of Secretary of State John Hay left Newbury Sunday for Cleveland, O., where the interment will take place. The funeral party consisted of Mrs. Hay, the widow; Clarence Hay, Dr. Charles L. Scudder of Boston, who attended Mr. Hay in his last illness, Mr. and Mrs. Samuel Mather of Cleveland, the latter a sister of Mrs. Hay, and S. A. Raymond, also a relative of Mrs. Hay.

The body of the secretary was brought down stairs from the death chamber and the casket enclosed in a rosewood box.

An express wagon was driven from the stable to the front door of the house and the casket was borne out by the servants and placed in the vehicle. The journey from "The Fells" to the station was over a distance of two and one-half miles.

The casket, which was covered with a rubber blanket, had been lashed to the wagon, the steepness of the hills making such a precaution necessary. It was followed only by the undertaker and Walter Grout, Secretary Hay's coachman. Both men walked, the coachman leading the horse while the undertaker walked behind. Not a person was met along the lonely mountain road and the window shades of the few scattered farm houses along the road were drawn. The rain fell in torrents as the little party trudged over the muddy roads.

### FOR A GIRLS' TRAINING SCHOOL

Bryan Methodists Will Seek to Establish a First-Class Academy in Bryan.

At the conclusion of his sermon Sunday morning at the Methodist church the pastor, Dr. I. F. Betts, made a statement to his congregation relative to establishing in Bryan a training school for girls, to be conducted under denominational supervision, and along the lines so successfully followed by the Allen Academy for boys. The plan is the outgrowth of the movement started last year to move to Bryan the Chappell Hill Female College, and this part of the plan has been abandoned owing to the opposition manifested by the authorities of that institution.

Correspondence on the part of the business league committee appointed last year has, however, proven conclusively that there is a strong demand in the Texas Conference for another girls' school, and that Bryan is regarded with much favor as a suitable location.

Dr. Betts said that he and members of the committee believe the time now opportune to set the movement on foot by some definite action on the part of the congregation of the Bryan church. At the conclusion of his remarks he invited expressions from members of the congregation, and favorable responses heartily endorsing the movement were made by Prof. R. O. Allen, Messrs. Ed Hall and R. S. Webb.

At the conclusion of the discussion a motion prevailed by unanimous rising vote that the matter be presented by the delegates of the Bryan church to the Methodist district conference at Huntsville this week for endorsement, which will give the enterprise the backing of the Huntsville district and place it in shape for preliminary work here with a view to bringing it before the meeting of the Texas Conference at Pittsburg in December, when it is believed that body will make substantial provision for establishing and fostering the school.

None of the schools of this denomination in Texas are confining themselves to the work outlined for the proposed girls' training school, so far as those having the movement in hand are advised, and it is believed that not only the Texas Conference, but the entire state may be counted upon as a field from which pupils may be drawn to Bryan for thorough preparatory work, which is now more than ever being emphasized by educators everywhere. By correlating the institution with the Southwestern University at Georgetown the two schools would be mutually helpful, the academy would act as a feeder for and in turn enjoy the powerful influence

of the University and Methodism throughout the state.

It is generally conceded that there is room in Bryan for such a school and that it would be helpful to the other schools here and profit by their presence. Further than this local public sentiment is manifestly favorable, and there is every reason to hope that the movement will be crowned with success.

### DOUBLE SUICIDE.

### Prominent Young Man and Woman Ended Lives in the Country.

Hearne, Texas, July 2.—A telephone message was received here this evening by relatives of the young lady that Mr. Ben Gilstrap, aged 19, and Miss Ida Mauk, aged 16, living at Henry Prairie, a village sixteen miles northeast of Hearne, had committed suicide late this evening. Both were found sitting under a tree one and a half miles from home. The cause of the suicide is supposed to be a love affair. Both young people belong to prominent families.—Houston Post.

Mr. Ernest Elliott received further particulars regarding the tragedy by telephone yesterday. It appears that the young people went out driving, stating that they were going to Franklin, but stopped a short distance from home, where they were found. They had with them a bottle of strychnine and two razors, but the razors were not used. They evidently took an overdose of the poison as there were evidences that they had convulsions. On the body of each was pinned a note stating that there were parental objections to their marriage and that they had rather die than live apart. The notes also requested that their bodies be taken to the home of Mr. Frank Gilstrap, who is a brother of the young man, and his wife a sister of the young lady, and that they be buried in the same grave at Henry Prairie cemetery. On the back of the notes was written: "We have taken poison and it is now 3 o'clock." The funeral was held yesterday afternoon at 5 o'clock.

The people of Brazos and surrounding counties are inexpressibly shocked by the untimely ending of two such bright and promising lives, and universal sympathy is expressed for the bereaved families.

### BRAZOS COUNTY SINGERS.

### The Meeting of the Convention at Reliance a Great Occasion.

The Brazos County Singing Convention closed a glorious meeting with Reliance choir Sunday afternoon. The Sunday exercises attracted 1200 or 1500 people from Brazos, Grimes, Madison and Leon counties and a magnificent dinner was spread upon the grounds and the multitude hospitably invited to partake thereof. Rarely has such splendid singing been heard as marked this meeting, and never has the association been more pleasantly entertained.

The convention met Saturday at 11 o'clock and Mr. N. L. Outlaw delivered the address of welcome, President I. M. Cook responding in behalf of the association. Singing and business details made up the first day's program. Mr. I. M. Cook of Steep Hollow was unanimously re-elected president; Mr. J. C. Cloud was elected vice-president, and Mr. T. A. Cloud secretary and treasurer.

The convention re-assembled at 10 o'clock, and at 11 o'clock Mr. A. J. Buchanan delivered the annual address on "Music," which proved of such value and interest and was so much appreciated that a motion prevailed that the address be published in the county papers.

Steep Hollow was selected as the meeting place for the convention next year, and Dr. Geo. B. Butler was unanimously chosen to deliver the annual address on that occasion.

Capt. H. R. Cavitt of the Bryan Light Guards has forwarded his resignation to Adjutant General Hulen at Austin and recommended that the company be disbanded. Capt. Cavitt is in receipt of a letter from Gen. Hulen expressing profound regret about the matter, but stating that the resignation will be received and the company mustered out as soon as arms and equipments are received at the adjutant general's department. Capt. Cavitt will immediately take steps to conclude the matter. The Eagle shares in the general regret this announcement will occasion.

### DR. BUTLER DECLINES.

Bryan Baptist Pastor Tendered a Leading Houston Pulpit.

Dr. George B. Butler, pastor of the First Baptist Church of Bryan, has been interviewed by prominent members of the First Baptist Church of Houston with reference to becoming pastor of that church. Dr. Butler declines to consider the matter, as he has begun a work here which he feels he must carry to completion.

At the conclusion of his sermon at the First Baptist Church Sunday morning Dr. Butler reviewed the matter fully and feelingly, and announced his decision, much to the gratification of the local church and the entire community. During his short residence in Bryan he has been instrumental in building and equipping one of the handsomest churches in the State, and has lately inaugurated the movement for establishing in Bryan the Texas Woman's College, toward which \$7,000 of the necessary \$10,000 bonus has been secured. He has been elected president of the board of trustees for the school and chairman of the executive committee. His whole heart and soul is in the work, and he will not stop short of its accomplishment.

### COLLEGE RAILROAD RALLY.

Special Meeting of the Business League

Will be Held at K. of P. Hall this

Afternoon at 5 O'clock.

The attendance on the Business League was small last night owing to the storm, and the meeting was adjourned without transacting any business until 5 o'clock this afternoon at K. of P. hall, where it is hoped to have a large and representative attendance of business men for a full and free discussion of the Bryan-College railroad problem, with particular reference to the motor car proposition, and toward which a considerable amount of money has already been subscribed by citizens of Bryan. Let everybody attend and give this vital matter due consideration. No subscription will be taken at the meeting.

On a government report of 77 yesterday, when 81 was expected, cotton futures advanced 106 points.

Bob Odom is in the city and will move his family to Mesa, Grimes county.

### PLENIPOTENTIARIES NAMED.

Those Who Will Conduct the Negotiations For Russia and Japan.

Oyster Bay, N. Y., July 3.—President Roosevelt authorized the following announcement to be made relative to the pending peace negotiations between Russia and Japan:

The president announces that the Russian and Japanese governments have notified him that they have appointed the plenipotentiaries to meet here (Washington) as soon after the first of August as possible. The two Russian plenipotentiaries are Ambassador Garavieff, formerly minister of justice and now ambassador at Rome, and Ambassador Rosen. The Japanese plenipotentiaries are Baron Komura, now minister of foreign affairs, and Minister Takahira.

"It is possible that each side may send one or more additional representatives. The plenipotentiaries of both Russia and Japan will be entrusted with full power to negotiate and conclude a treaty of peace, subject, of course, to ratification by their respective home governments."

The president's announcement practically concludes the preliminary negotiations for peace. Minor details remain yet to be arranged, but the conference now seems to be assured. While no absolute date for the meeting of the envoys has been fixed, it has been determined that the first session will be held in Washington about the first of August.

Baron Rosen is en route to the United States, his coming being to succeed Count Cassini as the Russian ambassador to this country. It is probable that Ambassador Muravieff will start soon for the United States, accompanied by a considerable staff of secretaries, clerks and interpreters. The Japanese contingent of officials and attaches, headed by Baron Komura, it is expected will leave Japan in time to reach Washington by Aug. 1.

All Frisco passenger trains between Sherman and Sapulpa are provided with collectors.

Extensive improvements are being made on the Epworth League grounds at Corpus Christi.

By a Southern railway collision at Spartanburg, S. C., two men were killed and two hurt.

Miss Naznie Jones was thrown out of a wagon near Brazos, Tex., and ran over. She died in two hours.

New York, July 4.—After spending thirteen years in prison in Colombia, tank Holley, formerly of New York, on his way back to this country. An aged mother, and a woman to whom he was engaged are awaiting his return. They believed Holley to be dead for fourteen years until they received a letter from him some months ago. Holley was employed by the Engleman Drill company of New York. He was an expert driller and received a large salary. His wife had died a year

## RIGHT TIME TO CURE CATARRH.

E. J. Jenkins Guarantees Hyomei Will Cure if Used Now.

The early summer when the weather becomes warm and settled, is the best time of the whole year to treat catarrhal troubles with the expectation of complete and lasting relief.

Everyone who has catarrh of the head and throat should know how foolish it is to try and cure it by drugging the stomach.

Until recently your physician would have said that the only way to cure catarrh would be by a change of climate, but now with Hyomei you can carry a health-giving climate in your purse or vest pocket, and by breathing it a few minutes four times a day soon cure yourself.

Everyone who has catarrh, or even a tendency to catarrh, should use Hyomei now, for the benefit will be gained twice as quickly and the disease thoroughly eradicated from the system.

The complete Hyomei outfit costs but one dollar, and includes a neat pocket inhaler, a medicine dropper, and sufficient Hyomei for several weeks' treatment. The inhaler lasts a lifetime, and if more Hyomei is needed, extra bottles can be obtained for 50 cents.

In Bryan there are scores of well known people who have been cured of catarrh by Hyomei. If it does not cure you, E. J. Jenkins will return your money. This is the strongest evidence he can offer as to his faith in the remedy.

## FAMILIES LOSING MONEY

Because They Hang on to Grade Cows That are Good Milkers.

A number of years ago I advocated buying a registered jersey cow by every family in Bryan. I still see some families milking three or four grade cows, paying as much for feed, and profiting little or none by the increase, all because the grade cows they have are good milkers. If you want to sell a grade cow \$50.00 is the outside price you can get, whereas registered cows are worth from \$75 to \$200.00. A grade heifer calf is worth \$2.50 to \$5.00 at three, four or five months old, while registered heifer calves from good cows will bring from \$25.00 to \$50.00 at three to five months old, which gives you a good profit in the increase and more butter and milk for less money than it will take to feed a grade cow.

I have an order now for all heifer calves three to five months old, from good registered cows and sired by "Signal of Bryan." I will give \$20.00 to \$30.00 for heifer calves of the kind and ages indicated sired by this bull.

#### DOORS NOT OPENED.

First National Bank of Topeka Ordered Closed by Comptroller.

Topeka, Kan., July 3.—The First National bank of Topeka, of which C. J. Devlin is the principal stockholder, failed to open its doors Monday, having been closed by order of the comptroller of the currency. Government officials are making an examination. Three or four hundred depositors were in line at 9 o'clock. On the door appeared this notice: "Bank closed by my orders. Comptroller of currency has been communicated with and will send examiner who will make state- ment." W. H. ROSSINGTON,

"Vice President."

Following the closing of the First National bank there was a light run on the Central National bank, in which Mr. Devlin is also a large stockholder. Cash to the amount of \$70,000 was deposited in the Central National to offset the run. J. W. Gleed stated later that \$70,000 worth of real estate \$300,000 of unencumbered Topeka property and over \$400,000 in coal land in southwest Kansas had been turned in by Mr. Devlin, together with \$700,000 in life insurance. Mr. Gleed asserted the Central National bank is in a perfectly solvent condition.

In the First National bank the state of Kansas has over \$500,000 in deposits, the city of Topeka \$39,000 and the county of Shawnee about \$30,000.

#### ORDERED TO LAND.

Failure to Do So Will Subject Them to Treatment of Deserters.

Bucharest, July 3.—Port authorities at Kustenji, Roumania, have been instructed to call up the 750 mutineers who are on board the Kialaz Potemkine to land from that vessel without arms, informing them they will be treated as foreign deserters while in Roumania.

In the event of refusal of the mutineers to submit to these conditions or hostile action against the town, Roumanian warships will be ordered to use force. There is much excitement on board the Russian battleship Kialaz Potemkine, where there are differences of opinion between leaders, some of whom are advocating landing in Roumania, while others are proposing to return to Russia and joining other mutinous ships. The prefect of Kustenji permitted a delegation of mutineers to enter the town and purchase provisions.

Sailors report the Black Sea fleet not only did not try to capture the Kialaz Potemkine, but crews of ships openly rejoiced when the rebel battleship left Odessa. The crew of the Russian gunboat Pseszouape, now at Kustenji, met some of the crew of the Kialaz Potemkine ashore and fraternized with them, the sailors embracing one another. The Kialaz Potemkine was accompanied by a Russian torpedo boat.

"Every member of the Southern Cotton association is pledged to secrecy until the government makes its report as to the investigation, which will not be long. When that report is made public it will show the existence of a human depravity in the department. The code that was adopted to transmit this information in advance to outside parties will stand as a moment to the ingenious brain of the most consummate knave in history.

"It was worked successfully with six or seven men looking on and being ignorant of what was transpiring."
